Oscar A. Romero Barbosa

Toa Baja, PR | 787-696-7701 | oromero2812@outlook.com | Portfolio | Github | LinkedIn

EXPERIENCE

Utreee IT Advanced Solutions — *Software Developer* July 2025 – Present

- Built the customer web banking portal and the API layer to the Fineract core (Laravel, React).
- Engineered a React Native (Expo) mobile banking app with biometric/PIN MFA and PCI DSS card handling.
- Built the Angular back-office and customized the multi-tenant Fineract core (Java, Spring Boot).
- Developed a payroll platform (Laravel, React) with a companion React Native app.
- Develop and maintain a rebate management system for supermarket chains (React, Node.js, AWS).
- Own deployments for the core and all client apps across environments (Linux, Nginx, PM2, AWS).

Freelance — *Software Developer* July 2024 – September 2024

- Worked on a C# desktop app with SQL Server to support business operations.
- Provided support and minor enhancements for internal systems built on Odoo ERP.

Involve LLC — *Front-End Intern* March 2024 – April 2024

- Redesigned UI/UX for Laravel-based web apps, improving usability, responsiveness, performance and accessibility.
- Collaborated with a team using Bitbucket for version control and workflow management.

PROJECTS

Borinquen Picks: Android Recommendations App (Project Link **)**

Kotlin | Jetpack Compose | MVVM | Firebase | Coil

- Developed an Android app that recommends places in Puerto Rico, organized by category.
- Built the UI with Jetpack Compose following MVVM, with support for dark and light themes.

Chef Claude: AI-Powered Recipe Generation Web Application (Project Link **)**

TypeScript | React | Tailwind CSS | Claude AI API | Vercel

- Developed a recipe suggestion app using AI and serverless API routes.

TimeTunes: Dynamic Playlist Generator from Billboard Charts (Project Link **)**

TypeScript | Nextjs | Tailwind CSS | WebScraping | Spotify API | Vercel

- Developed a full-stack app that generates Spotify playlists using Billboard chart data.
- Implemented user login via OAuth2 and serverless APIs for playlist creation.
- Web scraping process achieves a 94% match rate for songs available on Spotify.

SKILLS

Programming Languages: Java**,** TypeScript, PHP, SQL
Frameworks & Libraries: React, Angular, React Native, Laravel, Spring Boot, Node.js, Express
Databases: PostgreSQL, SQL Server, MySQL, Redis
Cloud & DevOps: AWS, Docker
Tools: Git, GitHub, GitLab, Postman, Claude Code, Cursor, macOS
Languages: Spanish (native), English

EDUCATION / CERTIFICATIONS

Bachelor of Science in Computer Science *August 2020 - May 2024*
Inter American University of Puerto Rico, Bayamon Campus

AWS Certified Cloud Practitioner *October 2026*
Amazon Web Services

Google Cybersecurity Professional Certificate *August 2024*
Coursera — Google
